## BHARAT SHAH

FOUNDER & CEO

With 50 years of dedication, wisdom, and resilience, Bharat Shah is a true icon of India's industrial growth. Beginning his journey in the early 1970s, he has witnessed and contributed to decades of change in the manufacturing and engineering sectors. Known for his trust, discipline, and quiet leadership, he remains an active guide and mentor—even today—supporting the next generation, including his son Bhavin Shah. A living legacy, Bharat Shah continues to inspire with his humility, vision, and values that remain the foundation of enduring progress.

## BHAVIN SHAH

PUBLISHER & CHIEF EDITOR

Bhavin Shah, founder of Feed Story Media LLP, brings over 20 years of expertise in print, digital, and event media, establishing himself as a key figure in India's industrial media landscape. A sharp media strategist and industrial storyteller, he's committed to delivering value-driven content across the manufacturing and engineering sectors. As the visionary behind EngineeringCore Newswire, a bi-monthly industrial magazine, Bhavin also pioneers video interviews, trade show coverage, and industrial podcasts—redefining how B2B content is created and consumed.

## HIREN SHAH

VICE PRESIDENT SALES & MARKETING

Hiren Shah, Vice President – Sales & Marketing, brings extensive experience in the publishing industry with a proven track record in driving growth and building strong market presence. He excels in branding, advertising, digital marketing, business development, and strategic consulting. Known for his leadership and team management skills, Hiren has consistently delivered results through innovative sales and marketing strategies. His deep understanding of market dynamics and client needs makes him a key force in expanding business opportunities and strengthening brand value across platforms.

360° Marketing Solutions powered by a strategic blend of Video, Print, Digital, and Pr—designed to deliver measurable ROI through targeted lead generation from key decision-makers and industry influencers.

Our publications and digital portals provide up-to-date industry insights along with key decision-maker information, serving as a valuable resource and added advantage for our customers.

In a short period, the company has grown with premium brand publications and portals.

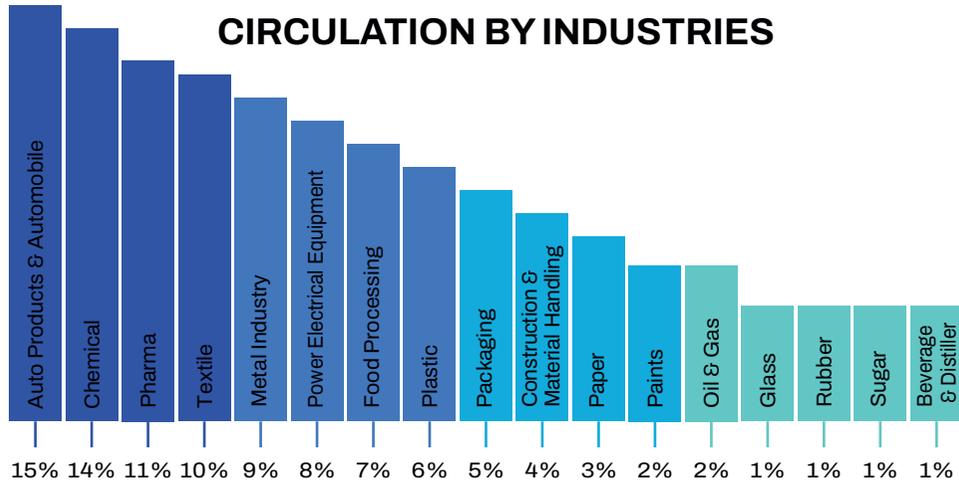

It offers a highly adaptable approach, tailored and refined to suit the unique needs of every industry niche.

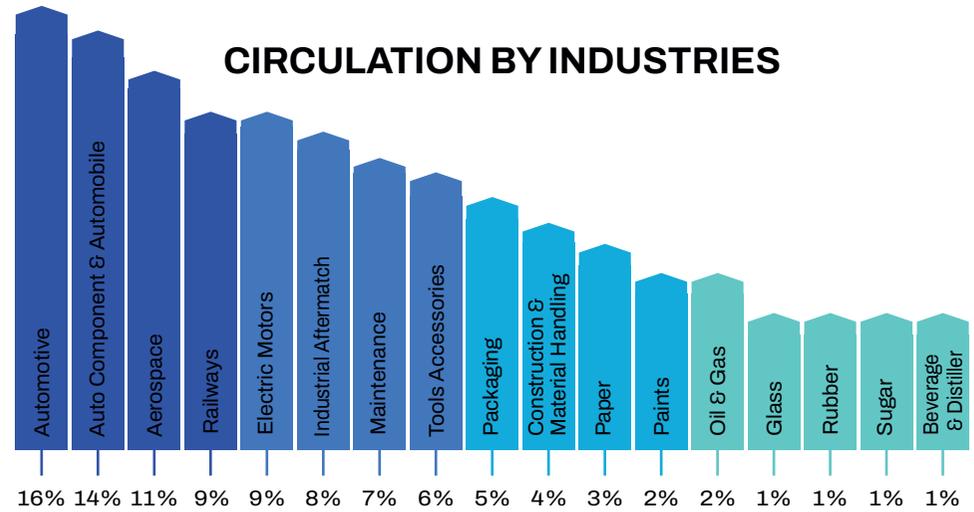

The highly qualified, well-trained, and experienced team has consistently driven remarkable growth year after year through its diversified and strategic approach.

SPINEX CORESTORY and ENGINEERINGCORE NEWSWIRE together deliver a powerful 360° perspective on the bearings, engineering, and allied industries. Each edition is thoughtfully curated with in-depth articles, industry trends, technical insights, product innovations and launches, expert interviews, and key project developments. Serving as trusted knowledge

hubs, these publications empower Project Managers, Purchase Heads, Technical Directors, and Chief Engineers to make informed decisions and achieve operational excellence. As one-stop destinations for industrial intelligence, they support the seamless integration of advanced and emerging technologies into modern engineering systems and infrastructure.
